S Ibrahim Irshad

| sirshad3401@gmail.com| irshad-ibarhim

PROFESSIONAL SUMMARY

Data Analyst with hands-on experience extracting actionable insights from complex datasets to support core business decisions. Skilled in data cleaning, exploratory analysis, and visualization using SQL, Python (Pandas), Excel, and interactive dashboards. Adept at transforming raw metrics into clear reporting that helps teams identify trends, streamline daily operations, and make informed strategic choices.

EDUCATION

Sahyadri College of Engineering & Management

B.E. in Computer Science (Data Science) *2022-2026*

St Sebastian PU College

Pre-university-PCMC *2020-2022*

PROFESSIONAL TRAINING Data Analytics Professional Training

Besant Technologies Bangalore

- Completed hands-on training in SQL query writing, Python data manipulation libraries (Pandas/NumPy), and interactive dashboard creation using Power BI and Excel.
- Worked on real-world datasets to execute exploratory data analysis (EDA), data cleaning, and automated reporting.

SKILLS

- **Languages & Databases:** Python, SQL (PostgreSQL, MySQL).
- **Libraries & Tools:** Pandas, NumPy, Matplotlib.
- **BI & Visualization:** Power BI, Excel (Power Query, Dashboards) **.**
- **Analytics & Modeling:** Predictive Modeling, Exploratory Data Analysis (EDA), Statistical Analysis, Machine Learning .
- **Data Handling:** Data Cleaning, API Testing & Data Integration .
- **Platforms:** Git/GitHub, AWS Basics.

INTERNSHIP EXPERIENCE

Data Analyst / Software Engineering Intern

yenepoya technology for incubator | Mangalore, India

January 2026 – June 2026

- Automated raw data extraction and cleanup using Python and SQL scripts, cutting manual weekly reporting effort by 35%.
- Built interactive Power BI and Streamlit dashboards to map operational KPIs, giving team leads direct visual visibility into performance metrics.
- Ran exploratory data analysis (EDA) across 50,000+ records to identify recurring process bottlenecks and back up strategic choices with solid evidence.
- Handled API response validation and database integration testing for web apps to safeguard data accuracy across backend systems.

PROJECTS

AI-Based Chemotherapy Dosage Prediction System

Tools: Python, DNN, Pandas, Numpy, TensorFlow/Keras, SHAP, Flask, React.js, SQLlite. [GitHub]

- Developed a hybrid CNN + GRU model to predict personalized chemotherapy dosages for GBM patients.
- Integrated SHAP explainability to deliver interpretable recommendations, improving clinical trust.
- Built a secure React + Flask web app for real-time predictions using multimodal patient data.
- Designed scalable database architecture with MongoDB for efficient patient record management.

HR Data Analytics & Executive Dashboard

Tools: Excel, Python, Pandas, NumPy, SQL, Power BI, Streamlit, Data Visualization, EDA, Git, GitHub [GitHub]

- Engineered an end-to-end HR analytics pipeline in Python, SQL, and Excel to clean, transform, and model multi-variable employee workforce data.
- Executed exploratory data analysis (EDA) across employee records to identify key drivers of workplace attrition, salary distribution, and tenure performance.
- Built interactive dashboards in Power BI and Excel using Pivot Tables, XLOOKUP, DAX, and dynamic charting to report core HR metrics to leadership.
- Constructed relational database models and optimized SQL queries to validate metric accuracy and automate data integration between backend systems and visual reports.

Expenso-Smart Finance Tracker

Tools: Python, SQL, Power BI,Next.js, Prisma, Tailwind CSS, Gemini AI, Nodemailer. [GitHub]

- Built an AI-powered personal finance manager using React and Firebase, enabling real-time tracking of expenses, debts, investments, loans, and taxes.
- Developed interactive visualization dashboards with Recharts and Tailwind CSS for trend analysis, financial health scoring, and multi-timeframe insights.
- Implemented AI-driven analytics and smart reports with export options (CSV/JSON/HTML), providing personalized spending insights and automated recommendations.

EXTRACURRICULARS

BIS Student Member

Bureau of Indian Standards – College-Level Initiative

- Participated in BIS awareness programs and standardization activities conducted at the college level, promoting the importance of quality standards.
